
Aus Foam Gym Mat used fitness filed 20,25,30,40mm From
<http://www.matfoam.com/>

MODEL:	Foam Gym mat
SIZE:	1m*1m
PACKAGE:	6pcs/set by bags per thickness

1mX1m Gym?Foam mat with 20mm,25mm,30mm,35mm,40mm

Colors and shading may vary based on manufacturing dates and unavoidable shading variance s that are a byproduct of the manufacturing process. All high-density mats will expand and contr act when used outdoors under extreme temperatures and are not UV stable.

Pattern:

Hardness: 35-40

Thickness: 20mm,25mm,30mm,40mm

Many Colours Are Available including grey+black, red+blue , green+lime & brown+tan

Continuous exposure to harsh sunlight and high temperatures will fade and breakdown the mat composition shortening their useful life, therefore it is not recommended that they be used in permanent outdoor installations. Not recommended for garage use where vehicles will be parked, as these mats are not designed for use under vehicles. Installation underneath heavy exercise equipment will permanently indent this product but will not impact the intended use. Not recommended for childrens play areas where equipment is being used requiring Fall Zone product specifications - please check your local governmental regulations for product requirements in Fall Zone Areas. Not recommended to be used on wood floors as some wood floor sealants may react unfavorably with the mats.
